

# Lady in Red / Pink Lady®

A high colour mutation of Cripps Pink with high coverage of the same bright pink blush, resulting in exceptional packouts. Matures one week before Cripps Pink.

Approved by the International Pink Lady Alliance to be sold as Pink Lady® in a number of countries.

# Tree

|                      |  |
|----------------------|--|
| <b>Chilling</b>      | Medium   |
| <b>Vigour</b>        | Strong   |
| <b>Growth habit</b>  | Upright  |
| <b>Full bloom</b>    | Late September to middle October<br>(mid season)           |
| <b>Pollinators</b>   | Royal Gala, Fuji, Hillieri, Red Delicious,<br>Granny Smith |
| <b>Bearing habit</b> | Spurs and tips   |
| <b>Production</b>    | Good   |

# Fruit

|                        |   |
|------------------------|---|
| <b>Harvest</b>         | Middle to late April  |
| <b>Mass</b>            | 155g  |
| <b>Shape</b>           | Oblong  |
