

# RM-1 and RS-1 / Red Moon®

---

- Red Moon® is a new umbrella brand for a series of red flesh apples bred by French Jean-Luc Carrieres and Escande nursery.
- Good eating quality, 10 to 11 months storage
- Good for processing, no oxidation, the red flesh colour is maintained; cider & fruit juice opportunities are promising
- Packout is very good
- Harvest – RS-1 end of Golden
- Harvest – RM-1 Fuji time
- <http://www.redmoon-apple.com/en/>
- Plant Material imported 2018
- Commercial trees: 2022 onwards
- Open Variety with trademark and licenced structure
- Tree and production royalty model to be confirmed

*Prime Fruit*
