

ARRA 15/ ARRA SWEETIES™

Features:

Type:	White Seedless with elongated berries
Harvest time:	Mid-season – with Thompson
Taste:	Neutral taste with high acid
Texture:	Firm and crispy
Berry size:	18-20 mm
Fertility:	Very fruitful

Cultivation:

Pruning:	Spur
Thinning:	Apply 1 ppm GA at 110% flowering if necessary
Sizing:	5-7.5 ppm GA at 7 mm berry size
Crop load:	57 000 bunches/ha
Bunch size:	Between 50-60 berries/bunch. To be shortened no later than pea-size. Do not exceed 60 berries/bunch

General:

- Variety is very labour friendly
 - Sugar to be 17-20° B at harvest. Do not exceed 20° B
 - Can handle rain – not sensitive to cracking
 - Sensitive to powdery mildew and sulphur burn
 - Avoid variation in sugar between berries in a bunch by reducing the number of bunches before flowering to one bunch per shoot.
- Shorten bunches after set to maximum 60 berries/bunch
