KIKU®

Brak - a branch mutation of Fuji (Ralls Janet x Delicious) selected by Luis Braun on the farm of Mr. Miura of Hirosaki in the prefecture Aomori, Japan. This selection has been very carefully tested and selected over a long period in South Tyrol and at the research station Laimburg. This process has resulted in minimal reversion. The branding and marketing done by KIKU® Ltd. is a recognised and extremely successful programme.

KIKU®
Fresh Apple Emotion 

Tree

Chilling	High
Vigour	Strong
Growth habit	Spreading
Full bloom	Middle October
Pollinators	Granny Smith, Hillieri
Bearing habit	Spurs and shoots
Production	High

Fruit

KIKU®

International leaders in Cultural Management

Brand	KIKU®
Harvest	Late March
Mass	150g
Shape	Flat - globose
Skin colour	Red stripe on a yellow background
Lenticels	Conspicuous
Flesh colour	Cream
Taste	Juicy, sweet
Texture	Crisp
Storage ability	Very good

Skin ground colour does not change to yellow after cold storage if harvested too green. Honey core develops in ripe fruit and is an indicator of good sugars.
