

# RALLI SEEDLESS

## Features:

<b>Type:</b>	Red Seedless
<b>Harvest time:</b>	Early – with Sugraone
<b>Taste:</b>	Neutral
<b>Texture:</b>	Firm
<b>Berry size:</b>	20-22 mm
<b>Fertility:</b>	Low

## Cultivation:

<b>Pruning:</b>	Canes (25 buds/m <sup>2</sup> .)
<b>Thinning:</b>	Apply 1-2 ppm GA at set. In difficult conditions, a second application of GA can be applied in combination with 1% low-biuret urea
<b>Sizing:</b>	Girdle at 4-5 mm. GA not recommended – negative for fertility. Girdling can increase the fertility
<b>Crop load:</b>	56 000 bunches/ha
<b>Bunch size:</b>	Scissor's length after set

## General:

- Apply 40-50 ml Ethephon per 100 litre water at 5% colour. In warm regions, 2 x 40 ml Ethephon recommended
- Shot berries and uneven berries may be a problem

*Table Grapes*
